For Immediate Release

Omnisome launches feedback surveys

Press Release: On July 22, 2023, Omnisome is opening access to the new survey type - feedback surveys.

Omnisome feedback surveys will complement the existing satisfaction surveys and mark the next phase of growth that will focus on expanding the types of available surveys. The upcoming transition will allow Omnisome users to choose from various survey types to improve data collection and measurements.

The feedback surveys offer a one-step process to collect customer feedback and deliver it to the Omnisome application. The simplicity of the survey allows to increase the conversion rate to gather more data.

Key features of the Omnisome feedback survey:

- Simple one-step survey
- Automatic data transfer to the Omnisome application
- Customizable and localizable surveys
- Easy integration
- Change management with milestone annotations

Omnisome is available in free and premium versions with free designed to help businesses start collecting feedback and calculating satisfaction scores.
